

**YOUR GLOBAL  
PORT CONSULTING  
SPECIALIST**

## Leading edge in operational expertise

We are an internationally renowned consulting company with profound experience in the global port, transport and logistics sector. For more than 40 years, HPC has been providing leading-edge professional expertise with a clear operations/owner's perspective.

With our down-to-earth attitude towards innovation and state-of-the-art technology, we have delivered more than 1,600 projects across 120+ countries spanning six continents, responsibly offering a wide range of independent and proactive services. This makes us inimitably knowledgeable with regard to ports, intermodal terminals and airports.

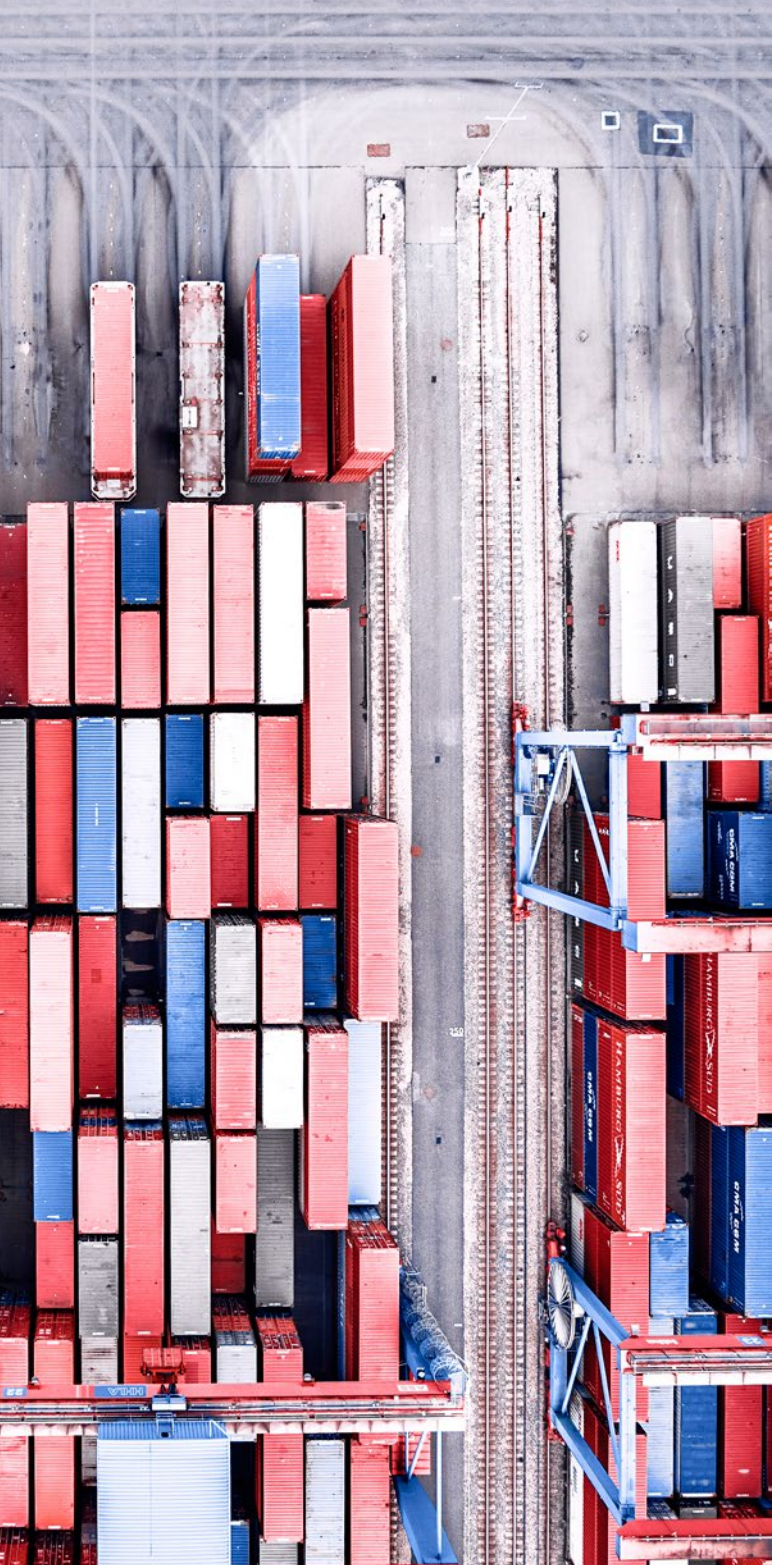

Understanding ourselves as a **full-service provider** in the field of transport consultancy, our Clients benefit both from our wide international experience and from our **multidisciplinary approach**, thus creating value to their projects. Be it the evaluation of an entire economy's market potential or the design and implementation of a marine container terminal, we always keep the full picture in mind.
