

We always strive to be second to none at what we are best at

Beach Nourishment Land Reclamation Port Development Offshore Services

Short response time, dedicated performance and clear agreements

Rohde Nielsen operates **worldwide as a general contractor as well as a subcontractor**. Our overall objective is clear and ambitious: **We strive to retain our position as one of Europe's largest marine- and dredging contractors** and a preferred partner in dredging- and marine development projects worldwide.

Marine dredging as progress, restoration or safety measure

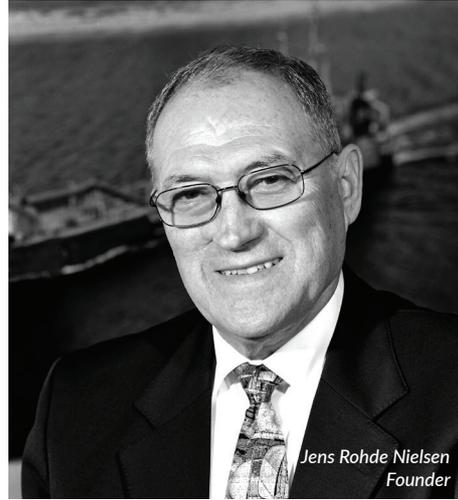

We work with nature, performing **beach nourishment, land reclamation, port development, capital and maintenance dredging of ports & fairways, offshore services, and rockworks.**

We create growth and promote welfare and safety all over the world.

An advanced, state-of-the-art fleet

The modern fleet of Rohde Nielsen **consists of a wide range of purpose built vessels**, including hopper dredgers, grab dredgers, deep-sea dredgers, bucket dredgers, backhoe dredgers, hopper barges, barge unloaders, survey vessels, and tug boats.

Our vessels use position systems such as **DGPS** and **POS MV, multi beamsurveys** and **Dynamic Positioning** and are all operated by a knowledgeable, dedicated and skilled workforce.

Jens Rohde Nielsen
Founder

Innovation, investment, know-how and efficiency are keys

To ensure continuous progress, **we invest in training, equipment and technology**. This enables us to provide and develop technically and financially attractive solutions for our clients. We constantly **invest in technology that lower our environmental footprint**, meeting and exceeding latest standards. Initiatives include the use of low-sulphur fuels and biodegradable oils. With **worldwide reach**, and expertise and experience gained through decades, the **Rohde Nielsen team** can guarantee short response time, dedicated and professional performance, and clear agreements that are respected throughout the projects.

Our own repair yard and logistics centre

To uphold efficiency and minimize operational down time, we have our **own repair yard** and a **logistics centre**, located in Grenaa, Denmark. From here, **we support our entire fleet around the clock and around the world**. Our building programme, all technical specifications and project work progresses are continuously monitored to ensure that we always meet the needs of our clients for state-of-the-art design, operational reliability and maximum efficiency.

Service, quality and cost efficiency

We obtain objective by providing the **best service and quality at low cost**, to the mutual benefit of our clients, our company and the environment. The wide range of successfully completed projects throughout the world has made Rohde Nielsen an **attractive partner for cooperation, as main- or subcontractor**. Through an uncompromising approach to business development, we have created a prominent, flexible, and service-minded organisation. **Our target is to serve our customers** in a skilled, professional and highly competitive way.
